SCHOOL OF DESIGN
& CREATIVE STRATEGY

International Master's Program in Design & Visual Communication in France

PARIS
MARSEILLE

ABOUT

Design & Creative Strategy

École Intuit Lab is a French institute of design, digital and strategy, co-founded by designers & academicians who had a vision to build a culture — not just a school. Ours is a culture where creative minds are free to innovate, create and be part of a design revolution. Our programmes produce highly skilled designers and art directors who are attuned to the needs of the world of business and commerce and equipped to adapt their craft to meet them. Our dual academic and professional approach breeds creative practitioners who are conscientious, innovative and resilient.

Come, design your creative career!

9 campuses

École Intuit Lab PARIS

The dream of any aspiring designer, the French capital offers students dynamic and multicultural resources. As one of the most vibrant creative economies in the world, its heritage brands, forward-looking entrepreneurial culture, and access to Europe offers students extraordinary diversity.

90 Rue de Javel,
75015 Paris,
France

École Intuit Lab MARSEILLE

A historical home to nobility and royalty, this southern French university town benefits from an unparalleled artistic culture. Steeped in architecture, academia and agriculture, students are promised an enriching experience in the sunny south of France.

56-58 rue de la Joliette,
13002 Marseille,
France

École Intuit Lab SÃO PAULO

As one of Brazil's cultural capitals, the city presents a lively mix of Latin and international culture, where students can explore a mix of art, music and gastronomy in the middle of explosive financial growth.

CAMPUS PARIS

A school that encourages reflection, learning and understanding of Design.

A stone's throw away distance from the Eiffel Tower, our Paris Campus is an island of creativity in a busy city. Our students enjoy the city's rich cultural heritage that inspire their art. Surrounded by well-known agencies and unparalleled opportunities in the creative fields, our students make the most to build their career paths.

CAMPUS MARSEILLE

The Marseille campus of Ecole Intuit Lab opened in 2021.

Ecole Intuit Lab finally arrived in Marseille in 2021! A dynamic city with a strong cultural and economic dimension, an ecosystem full of opportunities, perfect for our students to enrich their profiles with the French Riviera as a backdrop.

MASTER'S PROGRAMME

DESIGN & VISUAL
COMMUNICATION

Technology and design together, are leading the world through its most monumental transformation. In multicultural markets, during an era of explosive data culture, the ability to convey messages in creative, visual and universally comprehensible ways has become a powerful tool.

Visual Communication plays an important role in shaping our choices. This 2 year Master's programme trains students to infuse words and images with life and meaning, in ways that can persuade, educate, entertain or inform.

Our students leave the programme prepared for a variety of design careers in Art Direction, Digital Design, Brand Strategy, Typography, Advertising, Illustration, Communication, Graphic Design and a host of other creative specialisations.

About the program

A two-year Master's program in Art Direction, Graphic Design, and Digital & Visual Communication, taught in English.

Our curriculum is designed to foster creativity through hands-on learning, allowing students to apply and refine the skills acquired in their first year.

- Year 1: A full-time academic program.
- Year 2: A work-study format that combines academic learning with professional experience.
 - » 1 week per month of intensive courses on campus.
 - » 3 weeks per month in a paid apprenticeship, gaining real-world experience while earning an income.

OR

- Year 2: one semester in full time study, followed by an internship.

Diploma Title, accredited by the French Government

subjects covered :

Design Thesis + Digital artistic direction + Strategies /
Live project Consulting (Publishing & Digital) + Project
management Monitoring / News management + Artificial
Intelligence and Data analysis + Marketing + Storytelling +
Personal Branding + Entrepreneurship.

ACADEMICS

An Industry First Approach

Our programmes propose a uniquely professional approach to curriculum. We introduce our students into the real world throughout their education, by cultivating a balance between training and experience; between theory and practice; and between academic and professional.

Through hand-picked, professional faculty members, regular workshops, exchange programmes and compulsory local & international internships, École Intuit Lab makes sure that every one of our graduates is ready for the professional world.

By bringing students in touch with their futures, we make sure that every student who walks out of our campus is ready for the professional world.

Certificate Program

An intensive path to design mastery

The Certificate Program is a rigorous three-month training designed for those serious about building a professional career in design. Unlike shorter introductory programs, the Certificate allows for in-depth skill development, personal mentorship, and a consistent studio routine that mirrors real-world design environments. Students engage with complex projects, refine their technical abilities, and produce a portfolio that demonstrates creative and strategic thinking.

Whether you're making a career switch, strengthening your existing design practice, or preparing for further academic study, the Certificate Program offers the time, depth, and discipline to take your work to the next level.

“
What I like about
École Intuit Lab is that
it's very specific to
visual communication
and the fact that we
are in Paris, one of
the most cultural and
creative cities in the
world. So I'm very
grateful to be here!

JENNY SUN

Summerschool

A creative boost in the heart of Paris

École Intuit Lab's three-week Summerschool in Paris is an immersive, English-taught program for curious minds and aspiring designers. Open to all levels, it covers the basics of branding, graphic design, typography, and visual identity through hands-on studio work, collaborative projects, and workshops. Ideal for students or professionals exploring design, building a portfolio, or seeking creative inspiration.

With Paris as both classroom and inspiration, Summerschool offers a unique cultural and creative deep dive, perfect for those with limited time but unlimited curiosity.

Work with renowned brands

Our students have the opportunity to pursue internships or alternance programs with top agencies across France. Thanks to our strong connections with both French and international creative firms, students can gain professional experience in dynamic studio environments, from global networks to boutique agencies.

These placements provide valuable industry exposure, offering insights into real-world workflows, that often leads to long-term roles within the creative sector.

Our students have interned at...

Bringing the world to our campus

We have made it our mission to not only give our students an opportunity to head overseas, but to bring the continents to them. Over 200 professors and professionals alike have joined us in week-long International Workshops at the campus. We have also conducted numerous international masterclasses virtually where our students get to learn and interact with global industry leaders directly.

Joining the international creative community

Every year our students participate in global design workshops and competitions, placing themselves amongst young artists and creatives at the forefront of their industries. Judged by some of the most accomplished juries in the world, we are proud of many winning entries from our students.

STUDENT LIFE

A Human Scale College

For students, École Intuit Lab is more than a college: it is a place of fulfilment, creative emulation, and enriching dialogues with professionals. It is a meeting point for talented minds, where creativity thrives and ideas are born, fuelled and realised collaboratively.

Strong friendships are created, nurtured by team work, active extra-curricular lifestyles and real world interactions. These close relations create a safe, happy environment to allow for personal exploration.

Beyond this, students are encouraged to participate in many international opportunities to discover cultures, mindsets and approaches that differ from their own, preparing them to contribute to a global community.

A warm environment that emphasises individual interactions and personal growth

In keeping with the belief that exposure and experience lead to wholesome learning, our campus is always alive beyond the classroom.

From exhibitions and workshops, to student clubs, professional visits and year round recruitment events, we keep our students engaged in creativity beyond academics. We relentlessly innovate, collaborate and connect to turn creative talent into careers.
